

PUBLIC NOTICE

VASS

Cypress Point Fire Department will begin routine flow testing Monday April 11, 2016 at 8:00 am.
Area affected will be Vass.

During this time, please check the water clarity prior to washing clothes. To minimize the risk of drawing sediments into residential plumbing, residents are advised not to use hot water and to avoid doing laundry while flow testing is taking place in your area. We will flush all water mains to remove any discoloration. Discolored water could still remain in your service line. Please run your faucet for a minimum of one (1) minute to remove any undesirable water.

We apologize in advance for any inconvenience.
For more information please contact Customer Service at 947-6315.
